Angela and Monica: please see attached Summary for TF Vector Control (Harvey) activities, September 10, 2017 (9:00 PM CDT). No significant changes from last report DoD Aerial assets treated 102,000 acres in the northern portion of Orange County last night; Clarke has treated 700,000 acres today, and are scheduled to conduct applications in Jackson County tonight; FEMA, TX DSHS, are awaiting a signed blanket statement from USDA to organic farmers that allows their products to continue to be considered organic sourced. Ken
